Introduction

One of my favorite science fiction writers is Philip K. Dick, who is best known for writing novels that led to movies such as Total Recall and my all-time favorite sci-fi flick Blade Runner. In many ways, I feel that Dick was quirky and under-appreciated as a writer, and enigmatic as a man, but he was also well ahead of his time by writing about

devices such as video phones and attack drones, and the advent of artificial intelligence as far back as the 1950s. As a person with metaphysical leanings, the VALIS (Vast Artificial Living Intelligence System) books especially fascinated me, where Dick contemplates humans contacted psychically by alien intelligences from space. In the 1970s, Dick, and also clairvoyant Dolores Cannon in the 1980s, already had gleanings into the Hologram Universe and Quantum / Mandela Effect that are highly evident in our world today. I will get more into Dick and his writing at a later date.

As a writing exercise, I thought to obtain as much of Dick's writing as I could, read through it at a slow pace, and see what it might inspire me to write about. I have recently read Dick's *The Man In The High Castle*, and I also watched the Amazon Prime series by the same name, finding them both very entertaining and thought provoking. With these examples in mind, I started a new sci-fi short story. Dick's concept was based on a future where Germany and Japan were victorious in World War II, and the United States was defeated and occupied. My story premise is somewhat similar. It is set in the near future of the United States and Mexico, where Zionist Israel has taken over the Five Eyes Police / Surveillance States of the US, UK, Australia, Canada and New Zealand.

In many ways, we are already there. Several countries shun or even reprimand criticism of Holy Israel and independent scrutiny of the Jewish Holocaust. Fake News, Hollywood and many other mainstream venues are largely owned and run by Jews. The Rothschild banking family runs the US Federal Reserve, and through proxies every central bank in every nation on this planet, with the two glaring exceptions of Iran and North Korea. Social media giants such as Facebook and Google / Youtube are also either owned by Jews or Marxist Socialists, and rely on sources such as the Jewish Anti-Defamation League to decide what is genuine news and what is not. Every serious candidate for the presidency of the United States has to court the favor of the richest Jews in this country while campaigning, and sitting president Adon Trump even converted to Judaism shortly before he took office. Does anyone remember how our 'patriotic' US Congress gave Prime Minister Netanyahu 23 standing ovations while in session? * If that doesn't tell you who runs this country... Move along, citizen, nothing to see here.

For the purposes of my short story, by studying the terrorism that Israel has done in the past, and I mean verifiable terrorism, I thought I could extrapolate what they might do in the future. It is for that reason that I have jotted down the worst and most blatant cases, and organized them into the following article.

* Ben Norton of Mondoweiss calculated this disgusting example of treason by the US Congress towards a foreign dignitary, in his article *Over one quarter of Netanyahu's speech to Congress consisted of applause and standing ovations*. Netanyahu stood before Congress for 40.5 minutes. The parasitic leeches in Congress interrupted his speech 39 times with applause, including 23 standing ovations, amounting to 27% of Netanyahu's address time. In another article, Gatekeeper Jon Stewart called the ovations the 'longest blowjob a Jewish man has ever received.'

Examples Of Terrorism

I didn't want to go back too far, but all right, here we go. In the Christian Bible, Jesus didn't like the rich and powerful Jews of his time very much. He called them murderers, vipers, liars and children of the Devil. Jewish apologists will say that the

Romans crucified Jesus because ‘they feared that his followers wanted him to become king.’ (Religions Of The World: Judaism - Atkinson) You can believe that version of history if you’d like, or you can go with the Bible version, in which Jewish chief priests and elders, with High Priest Caiaphas at their head, plotted through, dare I say it, a CONSPIRACY, to have Jesus arrested and murdered. (Matthew 26:3,4)

The point I’m trying to make is that in the Old World Order, under Rome, high-ranking Jews did whatever it took to maintain their grip on power. Similarly, in today’s New World Order society, with the support of the Western Five Eyes Surveillance States, modern Zionist Jews are willing to do anything, up to and including fomenting World Wars, to keep their world domination agenda moving forward. The uninformed sheeple, including many trusting Christians, will say that Israel becoming a nation again in 1967 was a heaven-sent miracle of god, but no, that’s not the truth. Israel became a nation because of political deception, as attested to in the Balfour Declaration. It went something like this:

In the early 1900s, Lord Rothschild had the notion for his Zionist Jews to take over the Middle East (later known as the Greater Israel Project). That’s why he founded the League Of Nations, and its successor the United Nations. At the time, there weren’t that many Jews living in Palestine, but there were many Jews living all over the world. How would Lord Rothschild get them all together so they could have a larger political voice and bigger clout? This became a multi-step and multi-year plan. The first part required the establishment of a Jewish homeland in the Middle East. That was taken care of on November 2nd, 1917, when Arthur Balfour, a British foreign secretary, sent a letter to Rothschild. Granted, the agreement is vague, or better said veiled, in that Britain would allow Rothschild to establish Israel, and in exchange, Rothschild and other Zionists would influence the United States into entering World War I.

Part 2 of the plan was insanely insidious. The influential Illuminati family, the Astors, manipulated several lucrative and clandestine deals through their puppet group Institute for Pacific Relations, including the opium trade with Red China, laying the groundwork for the attack on Pearl Harbor, and most importantly for this article, laying the groundwork that led to the rise of Hitler in Germany. What did Hitler do, but cause tens of thousands of Jews to flee Europe and head to Israel? And what did the United Nations do shortly after World War II? On November 19th, 1947, the UN partitioned Palestine into three parts: one for the Jews, one for the Palestinians, and the last part for Jerusalem to become an international zone. How interesting that Adon Trump, a longtime shill for Israel, in 2018 declared Jerusalem as the site for a new US embassy, instead of the Israeli capital of Tel Aviv. The international cities are Washington DC, London and the Vatican, and if the Zionists have their way, it will soon include Jerusalem.

In case you missed the dots, ZIONISTS MANIPULATED TWO WORLD WARS TO FURTHER AN ISRAEL-CENTRIC AGENDA. Read the Balfour Declaration, listen to Benjamin Freedman’s revealing speech found on Youtube, and dig into the truth about the Jewish Holocaust and how the ‘magic’ number of six million persecuted Jews was proclaimed well ahead of Nazi Germany in Zionist-supportive newspapers dating back to the early 1900s. That’s how Israel was first recognized as a nation, not by god, unless that ‘god’ happens to have the surname of Rothschild. How many people died in those World Wars, so that the Rothschilds could create the terrorist nation of Israel? How many more

have died since then as other nations, primarily among them the United States, take it upon themselves to fight Israel's incessant wars in the Middle East?

Yeah, yeah, I'm picking on the Jews because I'm an anti-Semite and all that. Not all of them are bad, right? Wait, what is the official state religion of Israel? That would be Zionism. Oh, and do they have a street called Rothschild Boulevard. Well, yes, they do. And they haven't really been terrorizing the rest of the world like I'm saying, have they? Let's take a look...

1890s Russia - Wealthy New Yorker Jacob Schiff and the Rothschilds conspired to have hundreds of Jews murdered in Russia. This caused many Jews to flee to the United States and also brought about the bloody Bolshevik Revolution and later the communist Soviet Union.

World War II - Zionist Jews helped Hitler come into power. Hundreds of thousands of Jews were killed, causing many to flee to Israel.

Post World War II - After British soldiers liberated a portion of Palestine, the Zionists violently turned against them. Terrorist groups such as Irgun, led by Menachem Begin, carried out acts of terror against the British. Begin would later become Prime Minister of Israel and receive the Nobel Peace Prize.

July 22, 1946, Israel - At least 15 Irgun terrorists enter the King David Hotel with 225 kilograms of explosives. The hotel houses the headquarters for British forces and the Secretariat of Palestine. A gunfight ensues before the explosives are placed. When the explosives are detonated 91 people are killed, including 15 innocent Jews. Begin, the Nobel Peace Prize guy, is the mastermind behind the attack.

1950s Iraq - Israeli terrorists caused the deaths of many Iraqi Jews and put the blame on Iraqi Arabs. 119,000 of 125,000 Iraqi Jews fled to Israel.

1954 Egypt - In Operation Susannah, Israeli Mossad agents blow up a US facility and other targets in Cairo and Alexandria, Egypt. This was a large False Flag operation meant to start war between the US and Egypt. Thank God that the Mossad scumbags were caught and later confessed. This became known as the Lavon Affair after its mastermind, Pinhas Lavon, who was Israel's Defense Minister at the time. Lavon resigned soon after. Israel claimed the event was an 'anti-Semite hoax.' For 51 years, the terrorist state of Israel denied involvement in this terrorist act, until 2005 when President Katsav held a ceremony honoring the surviving agents.

"[Our goal is] to break the West's confidence in the existing [Egyptian] regime . . . The actions should cause arrests, demonstrations, and expressions of revenge. The Israeli origin should be totally covered while attention should be shifted to any other possible factor. The purpose is to prevent economic and military aid from the West to Egypt." - alleged orders from Lavon to Mossad operatives

June 8, 1967, Israel - Unmarked Israeli jet fighters and torpedo boats attack the USS Liberty in open, international waters. Machine gunners fired on lifeboats to ensure there would be no survivors. 34 American servicemen are killed, 171 are injured. If this False Flag had been successful, it would have started a war between Egypt and the United States. US President Johnson and Defense Secretary McNamara order the official inquiry to conclude the attack was accidental, thus covering up Israeli's involvement. This was not an accident because the Israelis attacked in UNMARKED jets and vessels.

1980s Libya - US President Ronald Reagan bombs Libya, killing 30 people including the daughter of Libyan President Moammar Qaddafi. Reagan attacked Libya as retaliation for the previous bombing of a German nightclub and to stop future terrorist attacks. A radio transmitter in Tripoli, Libya, gave US intelligence false information that led directly to the Qaddafi bombing. Later, Mossad defector Victor Ostrovski discloses the Mossad planted the transmitter and broadcast false reports.

October 10, 2001 - Only a month after the 9/11 event, Israelis using Pakistani IDs attempt to blow up the Mexican Congress. They are caught with handguns, grenades, explosives and detonators. If successful, this attack would have been blamed on radical Muslims.

America's only ally in the Middle East, Israel, has been responsible for more acts of terror, sabotage, and murder of American citizens than the Muslims ever were. By her duplicity, she has put Americans in more danger than they have ever known or will know. She has bombed hotels, American government buildings, deliberately allowed hundreds of US Marines to be killed in their barracks in Lebanon, assaulted a US intelligence gathering ship, the USS Liberty (for the purposes of blaming the Arabs and thus drawing America into her war against them), stole and then sold America's most sensitive nuclear weapons technology to her enemies, (Russia and China) and by all indicators most certainly was involved in the 9/11 attacks.

Whether it was the testimony given by the Israeli pilots who bombed and machine gunned the USS Liberty (killing 34 American sailors and wounding almost 200 more) or whether it was the Israeli intelligence officers who were arrested on 9/11 (while videotaping the destruction and cheering for a job well done) so much evidence exists which leaves no doubt as to who America's real enemy is, and yet short of one individual's conviction and prison sentence, Jonathon Pollard, nothing has been done with Israel with respect to justice or the interests of America's security. By contrast, year after year she is rewarded with more and more money and even more in terms of immunity and insulation from public scrutiny. - Quote from Through The Eyes Of A Muslim

Conclusion

You might have noticed that I left out a few big ones. That's because they are too far out from the scope of my short story. Among them are the JFK assassination; there are many angles for why this happened, but two of the most glaring are: JFK wanted to issue gold-backed currency, thereby eliminating the Rothschild Federal Reserve, and JFK also

wanted to send inspectors into Israel to see if they were producing nuclear weapons there. Another one I skipped over is the monumental False Flag of 9/11, which gave the United States the excuse to go bulldoze the Middle East in the name of Israel. Also, during the entire Barry Soetoro presidency, we had a running tour of Crisis Actors going all over the United States falsifying mass shooter events in order to take guns away from Americans, and now that Trump is in charge we're seeing illegal surveillance, online censorship and Fake News attacks on Free Speech and conservatives hitting an all-time high.

Oh, and let's not forget to mention what is happening in Venezuela, where the US is orchestrating a coup through covert attacks on that country's electrical power grid, False Flag bombings in Colombia, and fake soldiers in Peru pretending to be from Venezuela saying how much they hate Maduro (who is a true bad guy, by the way), all done to facilitate Jewish control of Venezuela's petroleum and the fourth largest gold mine in the world. How do I know the Jews are behind the coup? Because in October of 2018, the Rothschild Bank of England stole 500 million dollars' worth of gold bullion from Venezuela, that's why, and because Jewish investors had their petroleum rights in the oil producer PDVSA annulled after Venezuela figured out how badly they were getting screwed. (In early 2019, the Bank of England refused to give Maduro 1.2 billion dollars' worth of funds. Undoubtedly, Maduro would have used this money to fund terrorism or migrant caravans against the West, and not to feed or medicate his destitute population, so I am glad he didn't get his hands on it.)

You ever wonder why we can't have peace in the world, and why countries keep pushing and shoving until war breaks out and countless lives are lost? Could it have something to do with the Zionists that have been running the show ever since the Battle of Waterloo, when the Rothschilds first took over the Bank of England? Historically, the Jesuits have counseled countries into alliances and wars, and the Jesuits answer not to the god of the Bible, but to the Pope. And who does Pope Francis, a Jesuit General, answer to? Well, as of late he's been promoting multiculturalism and open borders, just like the Soros-funded Marxist Socialists have. Coincidence? I think not. I wonder if there is a video online showing the Pope kissing the hands of a Rothschild and a Rockefeller? You know, I think there is. Funny, isn't it, how everybody kisses the Pope's hand, and how that means he's at god-level compared to us regular humans. Yet there he is, kissing the hand of the Enlightened Ones, the Illuminati.

I don't know about you, but if we really want the world to become a better place, I think it's time we stopped giving Zionist Israel a free pass to commit terrorism.
